Preface

The purpose of this folder is to list courses or modules (“sub-courses”) that are offered in English and other languages at the departments of the Faculties of Humanities and Theology. One credit equals one ECTS credit.

The publication is intended to help exchange students to find courses accessible to them. In order to find more information about each course, please enter the course code into the search function “sök” of Lund University’s main website www.lu.se.

There is no claim that the information given below is complete, thus interested students should consult the relevant web page for each course for more detailed information. Exchange students must apply to these courses through their international coordinator at Lund University. Students may not attend courses without being previously admitted through their coordinator.

Courses preceded by ∆ do not require any special prerequisites other than one year of academic studies which all exchange students have by definition. The medium of instruction is English unless stated otherwise.

Regarding courses belonging to the Special Area Studies (SAS courses) there is a separate catalogue listing the courses more in detail. Check the on-line version:

http://www.lunduniversity.lu.se/admissions/exchange-study-abroad/exchange-studies/special-area-studies

The latest version of this folder can be found on our website, www.ht.lu.se/international

Faculties of Humanities and Theology

Studying at the Faculties of Humanities and Theology at Lund University means learning about life, for life. In a world of increasing diverse influences and rapid social development, it is important to be able to reason and discuss on the basis of basic humanistic values. We put people and culture in focus and studying with us is the first step on a path of lifelong learning, in which you learn the art of communicating on different levels, in different cultures and in different ways.

There are many subjects to choose between within humanities and theology at Lund University, and a number of them have existed in some form since the university was founded in 1666. On offer are major and minor languages, historical and philosophical subjects, different perspectives on life and faith, art history, musicology, film, journalism and much more. Humanities and theology not only help to set the individual in a wider context, but also help to develop greater knowledge of international environments.
