ABMA18: Intellectual Property and Digital Information: Law, Politics, and Culture

Second Term 2018

Department of Arts and Cultural Sciences
Division of ALM

Intellectual property has received attention from scholars from diverse academic fields. Moreover, one can find numerous publications from organizations representing different viewpoints and interests in relation to intellectual property. This course concentrates on the academic discussions of which a majority reflect documents issued by organisations. It is recommended to read these documents referenced in the literature, and it is mandatory to read at least 30 pages of **(summaries of international) treaties and declarations** as they are discussed in the lectures and in the literature, especially if they are featured repeatedly. You should select which documents to read in order to familiarise yourself with this type of document and to ground the argumentation of your final essay. You are required to cite relevant paragraphs. The documents, including short summaries, are available via one of the following websites:

For your final essay, you need to refer to some of the mandatory literature and to the **additional literature** that you pick from the list of further readings (see page 5 et seq.) and/or select on your own. Please make sure you are aware of our libraries' "Search tips" (<http://www.htbibl.lu.se/en/search/search-tips/>) and checklist for "Source evaluation" (<http://www.htbibl.lu.se/en/student/writing-referencing/source-evaluation/>). On both sites, you also find links to helpful videos (right pane).
